

GREENE'S
COLLEGE
OXFORD

COVID-19 Response Plan

Updated June 2022

Greene's College follows government advice regarding COVID-19 prevention and management. In accordance with current guidelines, masks are now not required at the college, though students and tutors are still welcome to use them for personal protection.

However, the college still encourages all students, tutors, staff, and visitors to take steps to promote hygiene and minimise the risk of infection. We therefore encourage all students and staff to:

- Refrain from coming into college if you have any symptoms of COVID-19,* reporting your illness to the college and relevant tutors, and then taking a COVID-19 test, if possible (if you test positive for COVID-19, you should remain away from college for five days);
- Be mindful of other people's personal space while in college;
- Promote good ventilation of rooms while indoors;
- Keep up to date with COVID vaccinations;
- Respect those who choose to wear a face covering;
- Cover coughs and sneezes with a hand or tissue;
- Wash hands regularly and thoroughly.

* COVID-19 can cause cold- or flu-like symptoms including, but not limited to, sore throat, headache, runny nose, fever, new continuous cough, or loss of smell/taste.
